Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3-7 and 15-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The most recent amendment to independent claims 1 and 15 raise questions as to the specific structure of the invention. That is, while it has been argued that the bit lines are completely buried within and surrounded by the substrate, the amendment to claim 15 requires that only a "length" of each bit line is completely buried within and surrounded by the substrate. This recitation implies that portions of the bit lines may not be completely buried and surrounded by the substrate. Similarly, it appears that the claim 1 recitation could be interpreted as requiring that only a "region" of the bit line is actually enclosed within and surrounded by the substrate.

The amendment to claim 15, in particular, rather than clarifying applicants' intended meaning of such terms as "buried" and "surrounded", only raises additional questions as to the structure of the invention. The examiner believes that these issues could be resolved with an unequivocal recitation to the effect that that *all* parts of the bit lines are completely buried within and surrounded by the substrate *on all surfaces*.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3-7 and 15-22 are further rejected under 35 U.S.C. 103(a) as being unpatentable over Hayashi in view of Wen, Rodgers and Saitoh, all of record, for the reasons stated in the previous action, hereby incorporated by reference. Since the claims do not appear to require that all parts of the bit lines are completely surrounded by the substrate, the combined references would appear to meet the claimed limitations.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
